4" x 4 1/2"

W26/36

Bolt Hole Spacing

2 7/16" to 3 3/8" x
4 5/16" to 5 1/4"

3/4" King Pin

Top Plate Size

4" x 6 1/4"

3/8" Bolt Size

SEMI-STEEL

RUBBER
MOLD-ON

POLYOLEFIN

CAPACITY 400 to 1200-lb.

8 Great Reasons to Buy With Confidence Fairbanks N22/32 Series

1. Backed by an American manufacturer in business since 1887.

2. Larger 3/4" King Pin provides for superior strength.

3. One-piece construction of King Pin and Lower Ball Race increases stability.

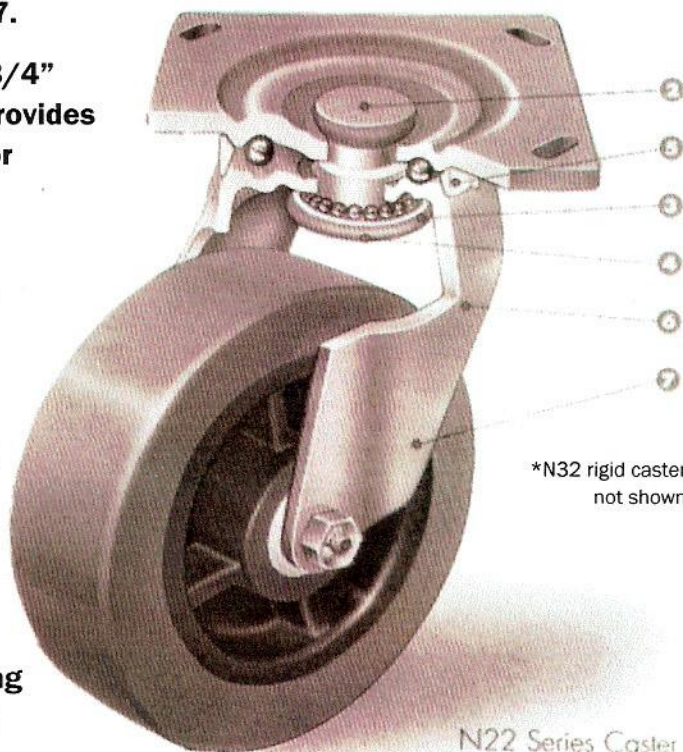

4. Orbit-formed King Pin means lasting durability.

5. Standard-equipped grease ring on upper ball raceway keeps dirt out while retaining a large reservoir of grease for a longer life.

6. No-weld construction on Caster Horn assures greater strength and longer life.

7. Tough ASTM test-proven powder coat finish.

8. Meets federal specifications ASME B56.11.1
